

RESERVOIR

Reservoir is a concise line of 6" x 24" porcelain panels produced in Northern Italy using the very latest 3-dimensional digital technology. This creates incredible realism that simulates: three "Natural Stone Look" color options and two "Wood Look" color options. In fact, these 6" x 24" panels are so real you will be hard pressed to find two panels that are the same.

PRODUCED IN NORTHERN ITALY

Produced in Northern Italy using the very latest 3-dimensional digital technology.

INDOOR / OUTDOOR USE

Can be used on both internal and external walls, as well as shower walls.

11mm

LIGHT WEIGHT PORCELAIN CONSTRUCTION

11mm thickness makes these panels lightweight and a fraction of the weight of their natural stone counterparts.

IMPERVIOUS

Panels can be used in freeze-thaw climates and wet areas, such as showers and steam baths.

WOOD LOOK PANELS

WILDWOOD - 82501

Simulates a natural blend of oak and ash. The color and deep natural graining create an amazing realistic effect.

TIMBERWOLFE - 82500

Subtle white-wash effect that simulates a natural blend of oak and ash.

NATURAL STONE LOOK PANELS

ELM CREEK - 82504

Replicates a vein cut white marble and features a wonderful variation of whites and grays.

FRESHSPRING 82502

White quartzite look with a soothing low color variation.

STONE RIVER - 82504

Blend of gray, white, and tan quartzite coupled with a large degree of texture, provides a stunning natural look.

INSTALL RECOMMENDATIONS

BLENDING

Care should be taken to blend products from multiple cartons laid out prior to installation to ensure a proper uniform look.

GROUT & THINSET

It is recommended to use a high quality thinset, 1/16 inch grout joint, and a complementary colored grout to make grout joint virtually disappear.

LAYOUT

A 33% off setting of panels during installation will help make the 3d pattern come to life. Miter two panels together when turning corners.

CUTTING

A wet saw outfitted with a diamond blade is recommended for cutting the porcelain panels.

CLEANING

Stains wash right away with a neutral cleaner. Even graffiti is easily removed without a trace, making these ideal for exterior installations.
